YOURDOST PRODUCT STRATEGY

Smart Therapist Matching Engine

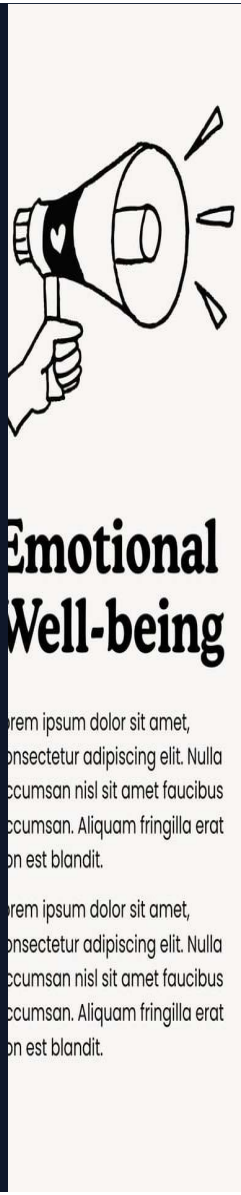

A data-driven, empathetic framework to eliminate discovery friction, improve clinical outcomes, and maximize long-term retention.

FOCUS AREA

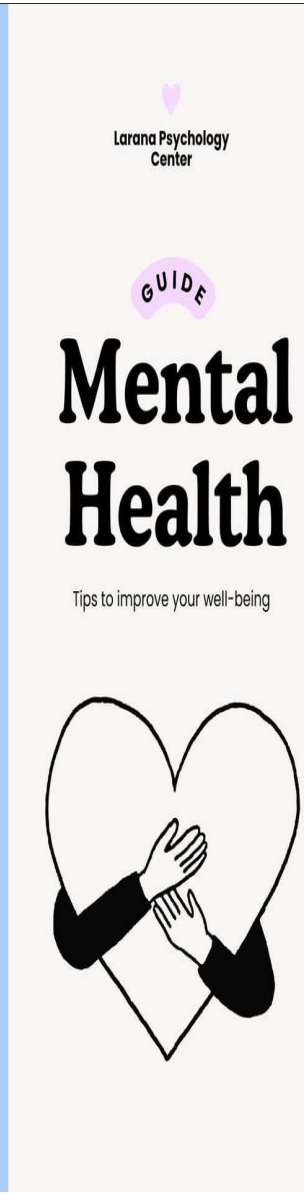

User Discovery & Retention

TARGET SEGMENTS

Corporate & Higher Education

PROBLEM DIAGNOSIS

Core Friction in Therapist Selection

Choice Overload

Directory lists complex clinical jargon (CBT, REBT, Eclectic). Vulnerable users experience severe decision paralysis.

High Friction Trial Loop

A single mismatched session leads to silent drop-off. Users assume "therapy doesn't work" rather than switching counselors.

Contextual Blindspots

Standard filters miss key nuances: corporate stress, regional language comfort (e.g., Hinglish), and communication style fit.

SOLUTION ARCHITECTURE

Data Taxonomy & Matching Framework

DEMAND SIDE

User Intake Vector

Presenting Concern: Burnout, academic, relational.

Therapy Style: Action-oriented vs. exploratory.

Context Vectors: Language comfort & demographics.

+

SUPPLY SIDE

Therapist Matrix

Clinical Domain: Modality strengths & experience.

Interaction Style: Listener vs. active challenger.

Outcome Vectors: Retention scores by cohort.

=

ALGORITHM

Hybrid Match Scoring

- **Specialization Fit (40%):** Domain match.
- **Style & Personality (30%):** Guidance fit.
- **Historical Retention (30%):** Success rate.

PRODUCT EXPERIENCE

Guided User Journey

PHASE 01

Empathetic Onboarding

2-minute conversational intake capturing concerns, language comfort, and guidance style preferences.

PHASE 02

Curated Recommendations

Presents 3 matched therapists with explicit transparent reasons (*e.g., Expert in Corporate Burnout*).

PHASE 03

Frictionless Booking

1-click calendar reservation paired with session preparation guidelines to lower intake anxiety.

PHASE 04

Alliance Pulse Check

Automated post-Session 1 feedback prompt to validate match quality or enable seamless rematching.

EXECUTION ROADMAP

MVP Feature Prioritization

Priority	Feature Name	Core Functionality	Release Rationale
P0 (Must Have)	**Guided Intake Quiz**	5-7 structured questions capturing concerns, language, and guidance style.	Essential data input layer; replaces directory browsing.
P0 (Must Have)	**Top-3 Match Display**	Curated cards presenting 3 recommended counselors with transparent reasons.	Eliminates choice overload and establishes trust instantly.
P1 (High)	**Post-Session Health Check**	Automated Session 1 feedback check-in with 1-click seamless re-matching.	Mitigates early churn before complete user drop-off.
P2 (Next)	**ML Weight Optimization**	Machine learning algorithms that dynamically recalibrate weights based on outcomes.	Requires initial interaction data volume; defer to Phase 2.

OUTCOME FRAMEWORK

Measuring Matching Effectiveness & Business Impact

By shifting from directory browsing to algorithmic guidance, YourDOST can increase session conversion, build immediate trust, and elevate lifetime retention.

>80%
First-to-Second Session Retention

>70%
Match Acceptance Rate (Top-3)
